School Management / Administration

Putting the Student at the Centre

Traditionally the schools are expected to fulfill the mission of teaching the students by minimizing operational & management overheads.

Today's growing technological environment expects schools to create students with the ability to think creatively, engaging productively with others and most importantly technology oriented skills.

CenterPoint fulfill tomorrow's requirement today by implementing cutting edge technological solution for school management & administration.

Benefits to the Management and Administration :

- Complete automation of all school operations
- Efficient School and Student information management
- Quick and qualified decision making through dynamic reports.
- Efficient and effective communication among school, parents, teachers and students.
- Centrally stored information with zero redundancy
- Cost-effective one point solution for total school operations and management.

Teachers

Saving Time for more teaching

Teachers are the front liners of Education. They are the leader to fulfill the expectations of tomorrow's workplace.

CenterPoint is fully flexible, secure feature rich and most importantly, easy to use! Taking attendance and scheduling students are completed with just a few clicks, leaving more time for the teachers to do the best....**Educate.**

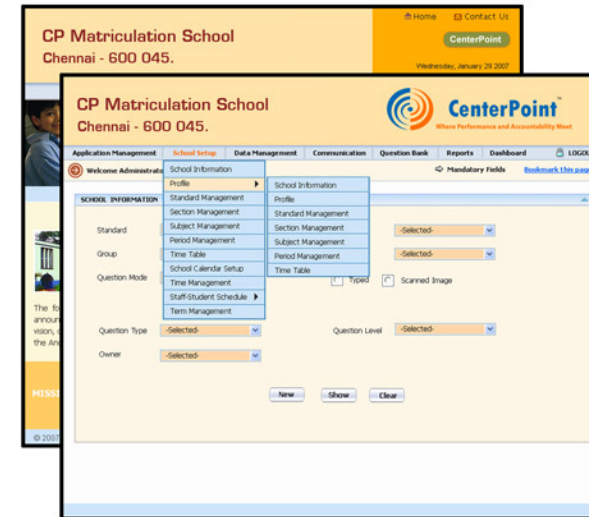

Benefits to the Teachers :

- CenterPoint has been designed by teachers for teachers
- Simplify the daily tasks such as marking attendance, entering grades, posting assignments and accessing student alerts.
- Track and analyze student performance on standardized tests.
- Communicate effectively with parents about classroom activities, achievement issues, upcoming exams, test information and keep them informed on their children's progress proactively.
- Create reusable lesson plans that are instructionally sound and meets standards.

Parents

Participating in Raising Children's Performance

Parents and Students are pulled in to many different directions today. Center point empowers parents to know more about their children at school and also allows them to interact with teachers and school administrators effectively.

Benefits to the Parents :

- Follows the highest level of industry standards to ensure complete security, privacy and reliability of all student information.
- Effective updates on child's attendance, progress report and fee payment.
- Access to information on school events and holidays.
- Enables "Anytime, Anywhere" secure access to student information.
- Receive student's performance with the class rank holders.
- Enables convenient interaction with teachers, principals, coaches and other education professionals.
- Promote communication with school to receive student grades
- Monitors student performance proactively.

**Where Performance
And Accountability Meet**
