

Gateway is designed with utmost precision so that the user is able to operate with ease and is fully guided by easy click of the mouse. The following screen shots is a sample of several salient features that shall speak for itself about the high quality and usefulness of Gateway.

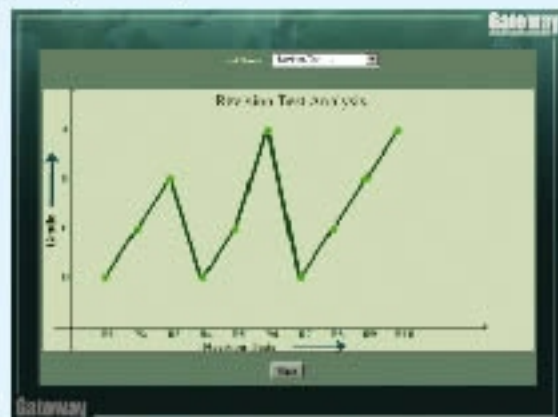

Various activities of an Administrator that can be performed using Gateway - click'n go.

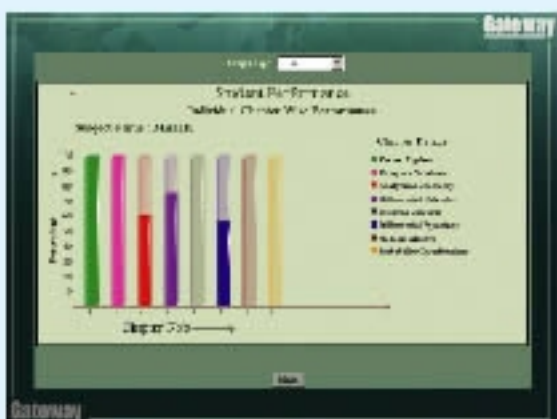

A freedom to the teacher(s) to create their own test for students of different performance levels to extract the best out of students apart from the predefined list of tests.

It's my way of learning... yes, students can set the target for their individual performance level.

An output that has been helping thousands of students to analyse their individual performance report towards the progress / weakness.

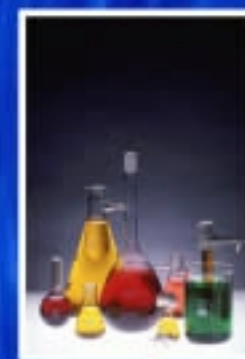

A dream that has been made possible through Gateway for students, teachers, parents and schools to review the students' performance from subject level to lesson level using bar charts and pie graphs.

It's my way of learning

Corporate Profile

In today's world of Information Technology, problems are plenty and Solutions are infinite. No result was found to be the only solution satisfying the ultra requirement of a problem and hence the future of any problem vis-a-vis its solution itself is a challenging task. Experience is a stepping-stone for Success and Success is the Key Factor for Survival. Experience is knowledge gained by unlimited practice and Practice Promises Perfection.

Intuitive Ideas for Innovative Solutions

- Technology for Education

In its endeavor to introduce a number of customized products and services each aimed at revolutionizing the specific areas of their operation OZT is all set to scale new heights of perfection in the years to come.

Gateway - "Education Redefined"

Providing quality education to the children has become a challenging task for the educational institutions and parents all over the world. Ventech's passion to take on any global challenge lead to the invention of "Gateway" - an Innovative Educational Software for the benefit of students community.

The efficacy and benefits of "Gateway" are so vast that the usage of "Gateway", which was firstly introduced in Tamil Nadu, had spread swiftly to all the adjacent States viz. Andhra Pradesh, Kerala, Karnataka and Maharashtra.

It is penetrating fast into the other parts of the Country, including rural India.

Every entrance needs a Gate ; Every entrance exam needs "Gateway"

Gateway– unique features

Gateway products are the result of concerted effort and an in-depth study by a cream of technocrats both in USA and in India on various aspects. It is well acknowledged to be of immense use for the students, teachers, parents and schools by all concerned. The versatile benefits rendered by Gateway in the process of teaching and learning are as follows:

TO STUDENTS:

- One-to-One interactive session with the teacher
- Thoroughness in preparation by vast coverage of topics with thousands of questions
- Building up of utmost self-confidence to face the exam
- Self-evaluation technique with instant score card on performance
- Questions with varying degrees of complexity, to arouse a sense of challenge
- Possibility of corrective measures based on instant score using notes/content
- Facilitates concentrated and focused attention during study
- Familiarity with questions and their answers due to constant practice
- Freedom from monotony of orthodox class-room type of preparation
- Familiarity and ability to face any Computer Based Test/competitive exam
- Competitive edge over the students who prepare in the traditional way.
- Satisfaction of undergoing coaching in an easy environment

TO TEACHERS:

- Higher degree of satisfaction for having used the best coaching methodology
- Serves as the best tool to supplement hectic class-room type coaching
- Elimination of often faced limitations in teacher-student interaction.
- Effective tool to put all the teaching in students' mind into an ideal slot
- Centralized Log-in facility to review the students' performance
- Facility to add more and more questions to test the students proficiency
- Provision for closer monitoring of individual scores and corrective action

TO SCHOOLS:

- Pride of 100% success in helping students achieve their dream career.
- Rising to high performance rating & producing rank holders
- Enhanced reputation as a school equipped with latest techniques in coaching
- Improved zeal & enthusiasm in teachers caused by better teaching aids
- Expression of praise & gratitude to school from students & parents alike

TO PARENT:

- Availability of Reports to ascertain the Performance of the student
- Closer monitoring of the remedial measures in consultation with the teacher
- Satisfaction for having provided quality education at affordable price
- Happiness that the fee paid had been rewarded with higher score
- Confidence of securing admission into Dream Careers for their children

To make Gateway universally suitable, OZT has on its agenda several releases in various Indian Languages viz. Tamil, Telugu, Kannada, Malayalam, Hindi and Bengali for meeting the needs of Students of the home State is already on its way to reach the student community.
